Our latest breakthroughs include; 2K x 2K microdisplay first demonstrated in 2015 and Direct Patterned Displays with brightness exceeding 4000 nits.

EMPIRE ADDITIVE SOLUTIONS

148 Round Lake Road, Rhinebeck, NY 12572
PHONE: (845) 389-9015

Empire Additive Solutions (EAS) is a Hudson Valley based advanced manufacturing company specializing in short-run, production-grade polymer parts. Using HP Multi Jet Fusion technology and in-house finishing (blast and dye), EAS delivers reliable, repeatable components for the med-tech, robotics, and premium hardware sectors. Every order ships with an Evidence Packet photos, measurements, and Certificates of Conformance because proof and communication are part of the product.

F

FAIR-RITE PRODUCTS CORP.

PO Box 288, 1 Commercial Row, Wallkill, NY 12589
www.fair-rite.com
PHONE: (845) 895-2055

Fair-Rite Products Corp., ISO 9001/IATF 16949 registered company, is a leading full-line ferrite component manufacturer offering a wide variety of components for EMI suppression and power applications utilizing innovative processes and materials.

FALA TECHNOLOGIES, INC.

430 Old Neighborhood Road, Kingston, NY 12401
www.falatech.com
PHONE: (845) 336-4000

FALA Technologies Inc. (FALA), located in Kingston, NY, provides contract manufacturing and supply chain manufacturing / engineering services to build custom equipment and advanced electro/mechanical products for the semiconductor, transportation, military, advanced energy and industrial products sectors.

Founded in 1946, FALA is owned and managed by engineers. Our customers are scientists, researchers, product and equipment designers, and advanced product manufacturers. FALA's business focus is to assist customers with product and equipment research and development, prototyping and early stage manufacturing. Our services include precision machining, electro/mechanical assembly and system's qualification of components, subassemblies, products and complete machine builds.

FALA also manufactures a proprietary product line of cleanroom grade bearings and related products to improve the operations and life-cycle of robotic production equipment for the semiconductor industry. Such work includes providing complete robotic rebuild services for many of the major semiconductor chip manufacturing companies located worldwide.

Strategic to FALA's success is our Next-Generation Manufacturing Workforce Initiative (NextGen). FALA offers NYS Certified Apprenticeship training for CNC Machinists, Toolmakers, Electro-Mechanical Technicians, Welders, Quality Assurance Auditors, Industrial Manufacturing Technicians and Maintenance Mechanics. FALA also offers Industry Pre-Apprenticeships called STEPs; and internships programs that include classroom and on-the-job training.

F&F FACTORY

220 Overocker Road, Bldg 2, Poughkeepsie, NY 12603

SIG SOURCING

95 Ann Street, Newburgh, NY 12550-5523

www.sigsourcing.com

PHONE: (845) 562-5546

SIG Sourcing, established in 1989, is a Newburgh, NY-based offshore contract manufacturing service for North American original equipment and contract manufacturers to outsource their custom, high-labor-content, low-value-add assemblies (e.g. box build assemblies, PCBAs, wire harnesses, power cables). We have decades-long Asian factory relationships and handle everything from component consignment to quality control to USA inventory management to customer shipments and returns. We are a turnkey sourcing service that eliminates the frustrations and risks that manufacturers encounter when handling overseas assembly manufacturing and global logistics themselves. Our mission is to help North American manufacturers focus on their high-value-add activities, improve margins, and enjoy a more stable supply chain.

SUPERPOWER INC.

21 Airport Road, Glenville, NY 12302

www.superpower-inc.com

PHONE: (518) 346-1414

SuperPower Inc. is a leading manufacturer and provider of second-generation high-temperature superconducting (2G-HTS) wires. For the past 10 years or more, we have provided, and contributed to, many solutions to various advanced applications and projects for our customers.

2G-HTS wires, unlike the conventional copper conductors, can transport the current with no resistivity, ultimate zero-ohms: This means that the power devices can be shrunk down to very compact sizes with no Joule-heats, when it is operated under cryogenic temperatures (77K, 30K, 4.2K, for instance). Our partners, by using our wire, have demonstrated very-high-current cables capable of more than 10 thousand Amperes, or advanced magnets of ultra-high field more than 40 Tesla.

Such high-power cables and superb coil-magnets will serve for future systems such as next generation NMRs for advanced bio-medical sciences, compact fusion reactors to solve climate changes. Future mobility will come true by HTS- hover transportation, electric-airplanes, or space-aircrafts. Thus, we will continue to contribute to the following Sustainable Development Goals (SDGs).

TOWER PRODUCTS INCORPORATED

1 Tower Drive, Saugerties, NY 12477

www.towerpower.com

PHONE: (845) 246-2357

Tower Products Incorporated is a 100% Employee Owned company solely based in Saugerties. The Tower mission is to provide the very best broadcast video production and audio recording solutions to a worldwide marketplace via our manufacturing capabilities as well as our distribution & retail channels. Tower has two sales channel brands: Markertek and TecNec Distributing. Markertek sells to broadcast television, sports & live event franchises, houses of worship, government and educational institutions. TecNec's customers are engaged in reselling products, installing products or integrating them into other manufactured goods. Innovation through collaboration, Tower's manufacturing brands specialize in custom value-added products and services when conventional off-the-shelf solutions simply are not enough. Tower has 6 brands which manufacture products in our Saugerties facility. These brands are known as Complex, Sescom, Laird Digital Cinema, Ocean Matrix, Delvcam and My Custom Shop. Our primary manufacturing capabilities are fiber optic cable assemblies, copper cable assemblies, AV rack panels, AV wall boxes, light manufacturing (board assembly) and custom services via CNC, laser engraving and UV printing.

TURBOFIL PACKAGING

30 Beach Street, Mount Vernon, NY 10550

www.www.turbofil.com

PHONE: (914) 239-3878

Since 1999, TurboFil has consistently established new benchmarks by creating durable and creative solutions for some of the toughest applications in the industry. At TurboFil, liquid filling and assembly machines are our only business. Although we have a broad range of standard equipment, we also focus on custom, built-to-spec and specialized machines. In order to meet the demand for systems that fit seamlessly into existing operations, we have developed a range of packaging equipment that is unmatched in reliability, efficiency and cost effectiveness. And, because we understand that every line has its own unique requirements, each of our machines is customized to the individual needs of our customers.
